

Big Data Case Studies

BRIDGING THE TECHNOLOGY GAP FOR BIG DATA

Leveraging years of experience, our Big Data consultants provide our clients with everything from initial POC assessments to complete design, development, and implementation of customized solutions.

BIG DATA DEVELOPER

ClearBridge provided a Big Data Developer who worked in a Hadoop framework as part of a Data Management team supporting Kafka/Scala Development

BIG DATA DEVELOPER

ClearBridge provided a Big Data Developer who worked to build a new operational data store, specifically helping with new physical Teradata stores. The data store supported our client's customer operations teams, supplying near real-time data to the call centers.

ETL/BIG DATA DEVELOPER

ClearBridge provided an ETL/Big Data Developer who supported highly-used data warehouse applications and Hadoop/Cloudera data lakes.

HADOOP DEVELOPER

ClearBridge provided a Hadoop Developer who supported the build of a new Data Lake. Our consultant was responsible for retrieving data from Kafka feeds and using Hadoop to bring the data into the Data Lake, using Hortonworks and Podium.

BIG DATA DEVELOPER

ClearBridge provided a Big Data Developer who worked to migrate data into Hadoop and Teradata environments. Our consultant wrote the overall framework using Unix scripting.

BIG DATA SME

ClearBridge provided a Big Data SME that offered advanced IT Services/Modernization services around IaaS, PaaS, SaaS, NaaS and DaaS solutions to the federal government. Our consultant was responsible for building open-source data lakes for our client's AI / Machine Learning data sets.

BIG DATA DEVELOPER

ClearBridge provided a Big Data Developer who worked in a Hadoop ecosystem and supported Scala/Hadoop Development, using Talend for data extraction and transformation.

UNIX/BIG DATA DEVELOPER

ClearBridge provided a UNIX/Big Data Developer who worked on a Framework team supporting Data Management systems and projects. Our consultant used Java and UNIX Scripting to transfer data from reports to CSV.

SENIOR KAFKA SME

ClearBridge provided a Senior Kafka SME for a Cloudera Data Flow Deployment. Our consultant was responsible for the design, configuration/implementation, optimization, issue resolution, and knowledge transfer.
